

KAESER MOBILAIR M210 PORTABLE COMPRESSORS

Designed for continuous site operation under tough environmental conditions, the Mobile M210 diesel powered air compressor is the ideal solution for large portable compressor applications such as those found on mine sites.

Features & Specifications

The powerful combination of the highly efficient KAESER SIGMA PROFILE rotary screw airend and an energy-saving CATERPILLAR engine provides impressive performance and fuel efficiency.

The MOBILAIR M 210 is designed for continuous building site operation under tough weather conditions and can be specifically tailored to meet the needs of the task at hand.

Thanks to the wide range of optional compressed air treatment components available, it delivers compressed air at the required quality at all times.

- Flexible application
- Compact body
- Equipped for tough conditions
- Made in Germany
- Efficient and durable
- SIGMA PROFILE airend
- Simple to operate
- Safety air filters as standard
- Cooled compressed air
- Technically oil-free compressed air
- Impressive performance
